

Avrail

The Avrail 1700mm bath is the same footprint as most standard size baths, and so, is the ideal solution to replacing an existing bath with a walk in.

With an ultra low step height, the Avrail walk-in bath offers one of the lowest step heights for a walk-in bath. A simple and elegant design that suits modern and traditional bathrooms.

Both models of the Avrail bath have a simple, neutral design which can blend in with both modern and traditional bathroom

décor. The Avrail range has a solution to suit everyone, the 1700mm is an easy to install alternative to a standard size bath whilst the 1500mm saves space and allows for deeper bathing. Bathers can safely and independently enter the tub through the slam-shut internally opening door with latch locking.
